## The Biodome Garden Book: Color Edition the Only Greenhouse Design That Needs No Electrical Ventilation or Humidifying System.

---

By Patricia Watters

CreateSpace Independent Publishing Platform. Paperback.

Book Condition: New. This item is printed on demand.

Paperback. 118 pages. Dimensions: 10.7in. x 8.3in. x 0.5in. THIS

IS THE FULL-COLOR EDITION QUOTES FROM THOSE WHO

KNOW: Even before the advent of biodomes, experimentation

had already begun with domed enclosures that could sustain

year-round gardens. At the forefront was Patricia Watters,

author of the The Biodome Garden Book, the premier book on

passive-solar biodome greenhouse gardening. (WHOLE LIFE

TIMES MAGAZINE) Located in the Brewer Park Community

Garden, the biodome garden is a structure of superior strength

which can handle harsh weather conditions, including strong

winds and snow. The atmosphere within the biodome garden is

naturally humidified with a wind-powered ventilation system.

In size, it will be 16 (sixteen) feet in diameter and eight (8) feet

high. (OTTAWA BIOSPHERE ECO CITY INITIATIVE). May as well

start off with the most comprehensive food production system

that I have ever come across. A wonderful lady named Patricia

Watters has written a book on how to construct a system that

not only produces produce, but also fish, (a great protein

source) in an environment that does not require sprays or the

traditional heating and electrical expenses associated with

green...
