Reviews

Comprehensive guideline for ebook fans. I have read and i am certain that i am going to going to go through yet again yet again down the road. You wont truly feel monotony at whenever you want of your own time (that's what catalogs are for concerning when you check with me).
(Keegan Abernathy)

LOGICS IN ARTIFICIAL INTELLIGENCE: 11TH EUROPEAN CONFERENCE, JELIA 2008, DRESDEN, GERMANY, SEPTEMBER 28-OCTOBER 1, 2008 PROCEEDINGS

Springer. Paperback. Book Condition: New. Paperback. 429 pages. Dimensions: 9.3in. x 6.1in. x 1.0in. This volume contains the papers selected for presentation at the 11th European Conference on Logics in Artificial Intelligence (or Journées Européennes sur la Logique en Intelligence Artificielle, JELIA), which was held from September 28 to October 1, 2008, at the Technische Universität Dresden, Germany. In total, 98 research papers were submitted by researchers from 24 countries. Each submission was reviewed by at least three expert reviewers. The final decisions on the papers were taken during an electronic Program Committee meeting held on the Internet. The Program Committee accepted 32 research papers for presentation at the conference. This includes two summaries of master theses that won the best thesis award of the European Masters Programme in Computational Logic (EMCL) in 2006 and 2007, respectively: the paper by Magdalena Ortiz on Extending CARIN to the Description Logics of the SHF family and the one by Novak Novakovic on Proof-Theoretic Approach to Deciding Substitution and Computing Least Common Subsumer in EL w.r.t. Hybrid TBoxes. The program also included three invited lectures by Sergei Artemov, Ruth Byrne, and Jérôme Lang. The lecture by Ruth Byrne was given jointly to JELIA 2008 and to the 9. Fachtagung der Gesellschaft für Kognitionswissenschaft (9th Symposium of the German Cognitive Science Society), which was held in parallel at the Technische Universität Dresden. Also colocated with JELIA 2008 were the 9th International Workshop on Computational Logic in Multi-Agent Systems (CLIMA-IX) and the 22nd Workshop on (Constraint) Logic Programming (WLP 2008). Many people contributed to making JELIA 2008 a success. We thank the authors of the submitted papers, which were of very high quality and covered a broad range of topics including belief revision, description logics, non-monotonic reasoning, multi-agent systems, probabilistic logic, and temporal logic. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
