The oral instruction in Geography, History, and Science cannot be said to be universally successful. Many classes are far too large for oral work, iind the back rows never answer. The extinction of the fixed examination has nowhere proved a more merciful deliverance than in needlework, the instruction in which has been better organised; but the omission of marking from the Needlework Syllabus is to be deprecated. But in the matter of music I have to regret the loss of the examination day. Exercises in voice-production might profitably be added everywhere. Mr. Curry says: --Bath. Our present system of inspection has certainly made school life more pleasant for everyone concerned. Though the annual examination of former days showed that schools...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
