Brand New Book ***** Print on Demand *****.Excerpt from South American Neighbors This is the best hour in all history for a fresh interpretation of the missionary opportunity in South America. As never before South America is in the eye of North America. With Europe and not with North America have been the relations, the sympathies, and the business of South America. British and German capital have built the South American railways and financed her foreign banks and importing concerns. From Spain, Portugal, and Italy have come her settlers. European books, European ideals, European social and political forms, have dominated and still dominate the South American people. Meanwhile North America had vast problems to solve, and gave little thought to the possibilities in the southern half of the western world. But new factors have been thrust into the equation. These factors are powerful and affect world conditions profoundly. A wholly new interest is felt in South America. It is about us like a rising tide.
